

# SAFE SHIP?

Is the Vessel I am chartering or purchasing sanctioned? Is it in safe condition?

Online evaluation:

1. Is the vessel sanctioned?
2. Has the vessel ever been detained by PSC.
3. Has the vessel an adverse PSC history with many defects raised during Inspections?
4. Has the vessel called any sanctioned ports.
5. Has the vessel operated in Dark Mode?

There is a number of organisations and government entities that monitor and gather intelligence on ships movements and shipping in general, and it is possible to collect a lot of this intelligence to form an image of a vessel's movements and compliance with international rules and regulations.

In addition to an online evaluation we can arrange onboard inspections in many locations world-wide. This can be as a stand alone service or as a part of a vessel condition survey.
